Vending - Over \$100 billion - per year and growing

RP Vending -
Supplying Australian
and New Zealand business
with convenience and
nationally advertised
quality products.

Our Team

Over 2 million
people per day
have access and
enjoy convenience
from an RP Vending
machine!

Welcome to RP Vending

RP Vending is Australia's largest and longest established vending machine supplier and manufacturer. RP Vending invented compact vending in Australia by introducing the first compact snack and drink vending equipment over a decade ago.

There are now well over 40,000 machines located throughout Australia and New Zealand, serviced by over 1000+ independent owner operators.

Our operators are all supported by RP Vending's complete "Business Start Up System™" creating a truly profitable business, resulting in a fantastic lifestyle opportunity.

Our long established wholesale partners Smiths, Cadburys, Schweppes, Coke, Nestle etc. offer a truly unique retailing opportunity that is highly profitable from day one with 100% plus profits and advertised nationally for FREE!

Big Brands are Best

Our dedication to our operators is unmatched and we know that a business development system from RP Vending, can be just the right business for you!

Today

For over ten years our vending machines have been established in business locations throughout Australia and New Zealand.

Over 2 Million people per day have access and enjoy convenience from an RP Vending machine providing profits for our national team of independent vending machine owners.

It's a little known fact that 50% of all owners with RP Vending are continually expanding their businesses.

So we know that your success is our success and we are committed to providing the very best in technology, training and support.

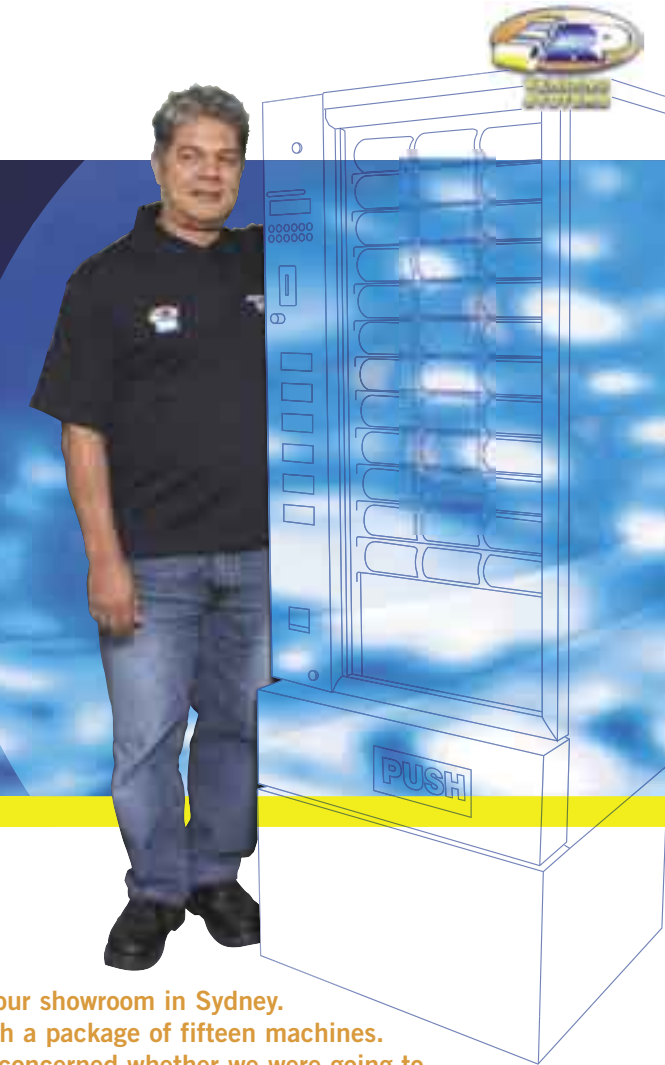

Nine years ago we bought fifteen machines from RP Vending Systems. We now operate a very successful business with eighty-eight machines, thanks in no small part to the initial setup, ongoing assistance and advice from a professional and ethical company, with whom it is a pleasure to be associated with.

John - Newcastle

Our Market Australia and New Zealand

Our siting professionals are a fantastic support in your business development!

Our Success is no secret

Its just an application of commonsense. 90% of all business are small with up to 30 employees. So a compact vending machine is the answer for the Australian market. There are thousands of locations available and our machine range is designed to create profits and provide convenience for staff and customers in all types of workplaces.

At RP Vending we have a convenient vending machine solution from compact machines for smaller locations to large corporate multi unit locations.

In any Australian and New Zealand business district there is a mixture of large, medium and small business.

So our unique equipment range is designed to fit all these locations. An RP Vending business system is not a package of one type of machine but a mixture of different sized/style equipment to cater to all levels of business within an area.

Locations

We carefully select the right locations as part of your introduction to this fantastic industry. Our team of locators are often seen around town in their uniforms and our sign written vans are highly visible. On any day our locators are negotiating premium locations, ensuring ongoing support for our operators.

Training

As we assist all new operators into this professional business. You are not tied to us in any way after your initial investment. You own the equipment, we extensively train you on all aspects of a vending business - from stacking, maintenance, site selection and procurement. You are fully trained to be a completely independent vending machine professional.

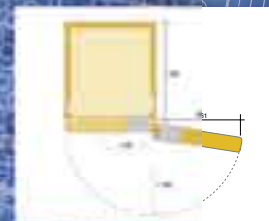

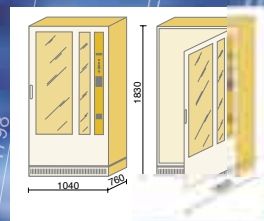

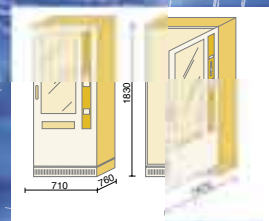

In 1999 curiosity drove us to your showroom in Sydney. I remember we left that day with a package of fifteen machines. At the beginning we were a bit concerned whether we were going to make some money from it after paying the lease, not to mention the worry number one, which was paying the lease! At the time I had a courier job and as I went past the locations during the week I topped them up.

Since day one, I never had to worry about repayments, the machines pay for themselves. So we bought another lot, and another lot but I must admit that to make it successful you have to provide good service, listen to your customers and make sure the machines are kept clean and always full. So I have decided to buy more again and this time dedicate myself to this business full time (three days per week!). I only wished I had met RP Vending Systems years earlier.

Everything I was told came true, including the excellent after sales service provided by everyone at RP Vending Systems.

Regards, Alfredo

Research and Development

Our Equipment Lines

Coffee and hot drink vendor

Bottles, snacks, cans and fresh food vendor

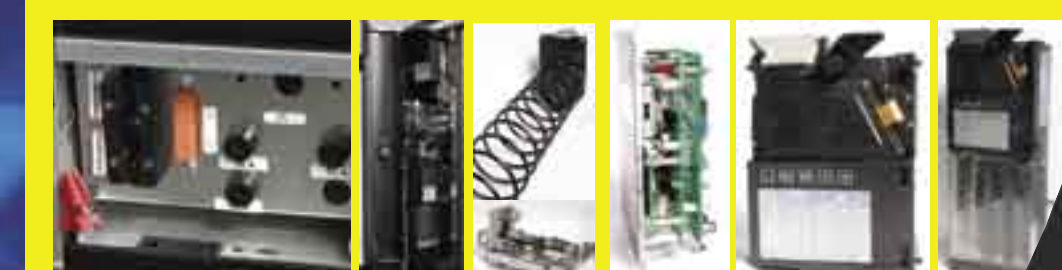

Mechanical snack and can vendors

Compact all can and bottle vendors

Compact can and snack

As Australia's only full vending equipment manufacturer we have the runs on the board. Our complete range of machines are at the cutting edge of technology. Our robust compact machines are designed to fit any location or workforce. They are truly unique in their operating design. Because our range is manufactured by us. We offer the longest and most comprehensive 3 year warranty on new equipment. **Now – that's peace of mind**

They work tirelessly for you year after year - 24/7.

I have been with RP Vending Systems for four and a half years now. I started with fourteen compact mechanical drink vendors. I now have eighteen of these machines. I have grown my business in another way. As well as drink machines, I now have twelve combination machines and two snack vending machines. My total capital outlay having started off relatively small, is now quite large. If I was not happy with the service and support from the team at RP Vending Systems there is no way I would have outlaid such a large amount of capital. I can thoroughly recommend the team at RP Vending Systems.

Des - Sydney Northern Beaches

The Staff is always helpful and a wealth of knowledge and nothing is a trouble to them. The training is comprehensive. The products they deal with are both reliable and easy to use. I think they are a great company with a very good product.

Richard Sands

RP Buying Network

With an RP Vending Network membership you get access and benefits from leading suppliers. Consider the benefits this will make you \$\$\$\$thousands per year.

Insurance - Peace of Mind

Our insurance privileges are the most comprehensive available and underwritten by Mercantile Mutual. This might sound like a simple thing but at approximately \$60 per machine per annum these are the cheapest rates in Australia saving you \$\$\$\$thousands per year.

24/7 - Total Support

A 24/7 business requires 24/7 support and our offices and technicians throughout Australia give you complete operating support. Our internet support portal is of fantastic benefit in your long term growth.

RP Vending Worldwide

RP Vending systems are currently seeking international partners in Europe. Interested parties please contact our head office in Sydney.
